

## SafetyBeltSafe U.S.A.

### Child Passenger Safety Resources and Technical Materials

#### IF YOUR PROGRAM INCLUDES . . .

- √ Safety seat checkups
- √ Safety seat loan or low-cost purchase programs
- √ Law enforcement checkpoints for child restraint use
- √ Teaching parents how to use car seats correctly

. . . YOU NEED THESE TOOLS:

**Protect your program from liability.  
Use accurate, up-to-date materials.  
Don't take a chance with a child's life!**

**PLEASE REFER TO THE CHART ON THE ORDER FORM FOR SHIPPING CHARGES.**

#### The Child Passenger Safety Reference Manual

**Part 1: Reference and Teaching Guide.** This guide, used in the eight-hour SafetyBeltSafe Educator Workshop, contains curricula for health professionals, statistics, information on laws and regulations, sample speech outlines, resource lists, up-to-date technical information, and guides for safety seat distribution program development, special needs transport, and early childhood programs. Order #45-49. \$50 + shipping/handling (see chart on order form).

#### Child Restraint Manufacturers' Instructions with Summaries ( #450)

Compilation of complete manufacturers' instructions for child restraints for the past 10 years with summaries developed by SafetyBeltSafe U.S.A. Summaries for each seat include revised recommendations from manufacturers, minimum and maximum weights, first and last dates made, harness threading and belt path diagrams, and identifying photos. **Option 1:** Order #450 on a USB drive, \$25 per copy; shipping included. **Option 2:** Order #450OL, a 1-year personal subscription online to the instructions and summaries with updates: \$25. Group order of online format: \$20 each for 100-249; \$17 each for 250-499; \$15 each for 500 or more.

#### Color Pictorial Guide to Safety Seats

This collection of color photos makes it easier to identify safety seats and boosters inspected at events when model names are missing. The model name is essential to find the correct instructions and check the recall list. Includes seats made for past 10 years. Order #50p. Order printouts at \$50 each + shipping/handling (see chart on order form).

**Color Pictorial Subscription.** Download the PDF and print a specified number of copies. Print 1-9 for \$30 each; 10-19 for \$25 each; 20-49 for \$20 each; \$1000 for unlimited copies for one year (to be printed and distributed by your agency only). Order #50s (subscription) and specify quantity.

#### List of Recalls and Replacement Parts for Child Restraints

Revised every time there is a new recall, the SafetyBeltSafe U.S.A. list is the most comprehensive recall list available. In addition to official recalls, it includes information about other replacement parts provided voluntarily by manufacturers. Safety seats without a recall also are listed, which prevents the dangerous error of assuming there is no recall if the correct name of the seat is not recognized. Order #179. \$10 for reproducible master, shipping/handling included, or subscribe to the Recall Update Service (see below).

#### Subscriptions Recommended for CPS Technicians, Instructors, and Program Managers

Check appropriate boxes on order form. Subscriptions are based on a calendar year (the following year is included if paid October 1 or later).
